CONVERTIBLE PISTOL LIST

PUBLISHED PURSUANT TO CHAPTER 55 OF THE LAWS OF 2026, PART C, SUBPART A, § 4

Initial Publication: October 30, 2026
Last Updated: October 30, 2026

STATUTORY AUTHORITY

Chapter 55 of the Laws of 2026 directs the Superintendent of the New York State Police to publish and maintain a list of pistols that are determined to be "convertible pistols," as defined in section 265.00 of the Penal Law.

DEFINITION

For purposes of this list, a "convertible pistol" is a pistol meeting the definition set forth in Penal Law § 265.00(37).

In general, the statute defines a convertible pistol as a semi-automatic pistol with a cruciform trigger bar that can be readily altered by hand or with common household tools so that it can be converted into a machine gun by the installation or attachment of a pistol converter.

The statutory definition does not include hammer-fired semi-automatic pistols, or striker-fired semi-automatic pistols lacking a cruciform trigger bar. See Penal Law § 265.00(37), (40).

A notch, tab, or other piece of material on a pistol frame does not prevent the pistol from qualifying as a convertible pistol if that material can be readily removed with common household tools so that the pistol can be converted into a machine gun by the installation or attachment of a pistol converter.

APPLICATION OF THE LIST

The pistols identified on this list are those that the New York State Police has determined, as of the date of publication, to meet the definition of a "convertible pistol" under Penal Law § 265.00(37).

Inclusion on this list does not, by itself, make possession of the pistol unlawful. The dealer and gunsmith restrictions in Penal Law § 265.10(10) apply beginning May 31, 2027, subject to the exemptions in Penal Law § 265.20(f). Other applicable firearm laws remain in effect.

This list is not exhaustive and does not supersede, limit, or modify the statutory definition of "convertible pistol." A pistol may constitute a convertible pistol under New York law regardless of whether its manufacturer, model, or model designation appears on this list. A change in trade name, model designation, branding, or stock-keeping unit (SKU), standing alone, does not change whether a pistol meets the statutory definition. A redesigned or materially different variant must be evaluated based on its own characteristics.

The absence of a particular pistol from this list should not be construed as a determination by the New York State Police that the pistol does not meet the statutory definition. The list may be revised or supplemented as additional determinations are made.

UPDATES

This list will be reviewed and published at least annually as required by Chapter 55 of the Laws of 2026. The New York State Police may revise or supplement the list when additional pistols are evaluated and a determination is made that they meet the definition of a convertible pistol under Penal Law § 265.00(37).
